ANALYTICS & STRATEGY CONSULTING FOR PAYERS

How Can We Help Payers?

- You likely have entrenched systems and processes that need a fresh look
 - We know the 'ins and outs' of these tools and processes and can ensure you do too
- You probably have a problem and are not getting what you need
 - Our team of experts have tackled all types of data warehouse, analytics, reporting and customer issues repeatedly
- Or maybe you are debating changing your data warehouse or third-party vendors but are not sure which direction to go
 - We do – we can guide you through this process and ensure a smooth implementation and help build a strategy for continuous improvements

Explore Our Professional Services

- Comprehensive benefit data strategy and advanced analytics consulting
- Vendor selection and management
- Report design, advanced analytics and a one-stop shop for managing your data
- Consultation on measurement of program efficacy, ROI and overall impact – for internal or outsourced programs or both

Our Service Advantage

- We are 100% dedicated to healthcare data, analytics and the tools and people that power them
- Our team each has many decades of experience in all aspects of data management, analytics, program evaluation and strategic consulting
- We've designed and built multiple healthcare data platforms
- Managed analytic strategies and vendor relationships for an entire spectrum of payer and employer profiles
- Well versed in payer analytics, reporting, system processes and best practices – leave the heavy lifting to us while you focus on your clients

"It was such a bonus working with a team of professionals who have actually spent a literal lifetime with these tools"
... Connie S.
